# 3 BIG QUESTIONS

PROTECTING GIRLS' SPORT  
**AGAINST TRANS AGENDA**

# THE RIGHTS & SAFETY OF GIRLS ARE ON THE BALLOT AT THE NEXT ELECTION

*We asked Australia, and they answered loudly*

Both here in Australia and overseas, the issue of sex and gender is escalating fast. There is perhaps no greater battlefield for this than on the sports grounds of Australia as our daughters face the prospect of competing against males in a competitive and often full contact environment. Mums and Dads are concerned. Girls are concerned. Yet there is silence from many of the politicians that are charged with representing us. They refuse to be drawn on the most basic of questions - are there fundamental differences between boys and girls? Do we as a society believe that girls and boys should be competing in sport against one another? And will the politicians step up and legislate to protect our daughters?

To help the politicians, we have conducted a nationally weighted poll to really get to the bottom of where the public are at on these important questions. And the results are astounding; completely at odds with the

ABC media and political elites that would have you believe we are all one big happy activist country, that is eagerly throwing our daughters' rights and safety off the cliff.

**67% of Australians do not believe that biological males and females should be able to compete together in sport.**

**75% of Australians believe that there should be legal protections for girls' sport in place.**

**And 62% are more likely to vote for a party that promises to legislate these protections.**

This is massive news and a clear wake up call for the politicians.

We know that we are closing in on the next election and many issue will be debated and

discussed in the lead up to Election Day. My campaign promise is this - each and every day Binary will put the issue of protecting the rights and safety of girls in front of every candidate and party we can. The politicians can run, but they cannot hide from the millions of Australians that want to see action on this critical issue and will vote accordingly.

So get ready. The election is around the corner. Our girls rights and safety are on the ballot, which side are you on?

*Kirralie*
